

### Agenda Assignment:

I have realized that getting my agenda signed is very important. I want my parents to know if I have a homework assignment so they can see if I got it done. I also want them to see how I behaved during the day. I want them to know that I've been on GREEN each day.

From now on, I'm going to get my agenda signed everyday. If I don't get it signed, when we start earning economy money, I know that I won't get paid all the money I could earn if I did get it signed. Also, I want to get my behavior sheet signed so that I can earn an extra recess at the end of the week.

I'm going to write these definitions so I'll get my agenda signed:

Sign - write one's name on (a letter, card, or similar item) to identify oneself as the writer or sender.

Direction - the management or guidance of someone or something.
