

## Guidelines for Reader's Workshop

- 1) You must ALWAYS be reading a book or writing your thoughts about your reading.
- 2) You need to work silently to enable you and your peers to do your best thinking.
- 3) Use a soft voice (level 1) when conferencing with a teacher.
- 4) Select books you think you'll enjoy and abandon books that aren't working for you after you've given them a fair chance (conference required first)
- 5) List the book information when you begin and chart your progress when you're finished.
- 6) Always do your BEST work.
