

Homework:

Page 57-59 Problem #'s _____

<p>A number sentence with a equal sign is called an _____</p>	
<p>In a number sentence or _____ we may have a missing number that is represented by a letter. This is called a _____.</p>	<p style="text-align: center;">$8 + W = 15$</p> <p style="text-align: center;">The variable is _____.</p>
<p>In the equation 8 and w are called _____. We are missing one of the addends (W) so we find it by subtracting from the sum.</p>	<p style="text-align: center;">$8 + W = 15$</p>
<p>When we have multiple addends we add the addends we do know together and then subtract.</p> <p>Or</p> <p>You can subtract each addend Individually.</p>	<p style="text-align: center;">$15 + 20 + 6 + x = 55$</p> <p style="text-align: center;">-----or-----</p> <p style="text-align: center;">$15 + 20 + 6 + x = 55$</p>

We can solve word problems by writing out equations.

A baseball team has nine total players. Four of the players are in the infield. The rest are in the outfield. How many are in the outfield?

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

Infield players + Outfield players =
Total
