

## Lesson 46: Word Problems & Fractions

This morning  $\frac{2}{3}$  of Mr. Taylor's 30 students rode the bus to school. How many students rode the bus?

Step 1: Write out the \_\_\_\_\_. Remember, when you see the word "of" in a word problem with percents or fractions that means to \_\_\_\_\_.

Step 2: \_\_\_\_\_ across.

Step 3: \_\_\_\_\_ to find the answer.

Dade scored  $\frac{1}{5}$  of his team's 10 points. How many points did Dade score?

Jacoby & Easton scored  $\frac{3}{4}$  of their team's 48 points. How many points did they score?

Faith's dog ate  $\frac{1}{4}$  of a dozen dog bones. How many dog bones were LEFT?
